Work Experience

Balsamo s.r.l. Italy
IT Department Apr. 2025 – Oct. 2025

- Developed various utility scripts that increased the efficiency of business analysts by 100%
- Built and integrated reusable components (filters, state change logs, CRUD modules) that improved system functionality and usability.
- Enhanced multiple interface components, leading to a better user experience

R3S1N s.r.l. Italy
Administrative Employee Oct. 2021 – May 2023

- Developed multiple VBA macros and forms, significantly enhancing workflow efficiency and accelerating critical processes
- Optimized data collection process by developing prototypes designed to collect field data more efficiently using Microsoft Power Apps and Power Automate
- Maintained numerous spreadsheets utilizing software applications like Microsoft Excel and Microsoft SharePoint

Projects

Comic Corner catalinosbi.github.io/Comic-Corner

Web Application

- Designed “Your Comics”, a custom feature that allows users to create and manage comic folders, with comic added using the Marvel API-powered search engine
- Developed Comic Spotlight and Latest Releases sections, allowing users to view regularly updated new comic releases and specific series highlights

Maxim

E-commerce catalinosbi.github.io/Maxim

- Engineered an Admin Panel that provides administrators basic CRUD functionality such as deleting, updating, and adding new products
- Developed an Auth System, allowing users to create and manage accounts with features like user roles, password resetting, and Google OAuth
- Designed a cart component, enabling users to add or remove products and adjust their quantities
